

SPRAY-FAST®

**HUMECTANT – NONIONIC SURFACTANT –
WETTING AGENT – ANTIFOAMING AGENT**

Spray-Fast® is a new generation surfactant that contains organo-modified siloxane technology for use in water-based pesticide formulations. SPRAY-FAST® is a highly effective humectant, nonionic surfactant, wetting agent and antifoaming agent to improve the spreading and absorption of the applied spray-droplets during application.

KEY FEATURES

- Combines nonionic surfactants and organosilicone into an easy-to-use spray adjuvant formulation
- Designed for fast spreading, uniform distribution and absorption of spray on leaf and stem surfaces
- Reduces foam in the spray tank
