

SPRAY-RITE®

**WATER CONDITIONING AGENT AND ACIDIFIER
FOR PROFESSIONAL SPRAY APPLICATIONS**

Spray-Rite® is a specially formulated blend of water conditioning agents intended for use with a variety of pesticide or nutrient applications. Effective in lowering spray solution pH and treating water hardness.

KEY FEATURES

- Water conditioning agent and acidifier for herbicide sprays
- A combination spray solution pH acidifier/buffer and water softener in an easy-to-use water soluble powder
- Compatible with all glyphosate formulations and a range of drift retardants and nonionic surfactants and is approved for aquatic use
