

COMPEL®

Syringing Treatment Pellet

Compel® is a syringing pellet designed to deliver a soil surfactant to re-hydrate hydrophobic soils and hasten recovery of turf under abiotic stress. Compel® is ideal as a hand-watering supplement to promote turf recovery in areas where soils have become hydrophobic. Syringing treatment pellets will fit into most standard hose-end applicators.

CONTAINS NON-PLANT FOOD INGREDIENTS:

30.0% D-Glucopyranose, oligomeric, C10-16-alkyl glycosides

1.0% Polysiloxanes, di-Me

19.0% Ethylene oxide-propylene oxide copolymer

50.0% Inert Ingredients

KEEP OUT OF REACH OF CHILDREN

WARNING

MAY BE HARMFUL IF SWALLOWED. CAUSES MILD SKIN IRRITATION. CAUSES EYE IRRITATION.

PRECAUTIONARY STATEMENTS: Wash hands, forearms and face thoroughly after handling.

PERSONAL PROTECTIVE EQUIPMENT: Wear protective gloves / protective clothing / eye protection / face protection.

FIRST AID: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice / attention.

IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice / attention.

IF INHALED: Remove to fresh air. Give nothing by mouth.

IF SWALLOWED: Keep at rest. Do NOT induce vomiting. Obtain immediate medical attention.

STORAGE AND DISPOSAL:

STORE PELLETS BELOW 90°F! Do not store near heat or open flame. Store in cool dry environment. Keep out of direct sunlight. Store in original, tightly closed jar. Refrigeration recommended for maximum longevity. Dispose of pellets and jars in accordance with local and national regulations.

DIRECTIONS FOR USE:

Apply Compel® to water-repellent, dry, and / or drought-affected turf areas. One Compel® pellet will treat up to 6,000 ft² during hand watering and / or syringing. Follow up throughout the month with Compel® pellets as needed for localized dry spot treatment and general turf watering.

DIRECTIONS FOR HOSE-END APPLICATOR:

Using available commercial in-line hose applicators, remove the plastic lid, insert the pellet and the plastic jar into the reservoir of the hose-end applicator with the opening of the jar containing the pellet facing toward the flow of water. Secure the reservoir to the applicator and begin application. Inserting the jar with the pellet facing away from the water flow will slow the rate of erosion of the pellet and reduce the amount of surfactant dispersed over time. This is an acceptable option for minimizing wetting agent use. Always return any unused pellet to original container and store in a cool place (refrigeration recommended for maximum longevity).

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties, and Limitations of Liability.

CONDITIONS, DISCLAIMER OF WARRANTIES, and LIMITATIONS OF LIABILITY. CONDITIONS: The Directions For Use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risk associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Simplot AB Retail, Inc. and its affiliates (collectively, "Simplot").
