

# SPRAY-WET®

NONIONIC  
SURFACTANT

SPREADER-  
ACTIVATOR

DEFOAMING  
AGENT

Spray-Wet® increases the activity and effectiveness of pesticides, by breaking down the waxy cuticle on the leaf surface, and improves adhesion between the applied spray droplet and the target surface.

## KEY FEATURES

- Concentrated 90/10 nonionic surfactant formulation
- Improves coverage of applied spray droplets to target plant or pest
- Reduces foam in the spray tank
