

TRACER® GREEN

SPRAY PATTERN INDICATOR CONCENTRATE

Tracer® Green is a highly concentrated green liquid dye colorant designed to highlight spray application pattern when applying pesticides, fertilizer, and/or growth regulator tank mixes. Color response will be temporary on areas applied but will be highly visible after application.

KEY FEATURES

- Highly concentrated, non-staining green spray pattern indicator
- Low use rates
- Ideal for applications where the highest visibility is required (bare ground, dormant turf, etc.)
